WORK EXPERIENCE

GOOGLE July 2015 – Present

Student Ambassador

- Attended a conference to engage with Google products and to learn how to promote Google to student community
- Worked with Google employees to plan Google-related events and evangelize Google products and events

BEAUTYBOOKED July 2015 – October 2015

Developer Intern

- Increased online exposure during development process by creating methods to automatically update web HTML tags, using readable URLs, incorporating types to location pages, and using an MVC to create more functionality
- Rewrote product code to use Bootstrap and Sass, to increase responsiveness, and to retrieve product feedback from the user
- Wrote unit tests using FactoryGirl and Rspec to ensure the product is functioning for both users and administrators
- Used internal APIs to retrieve data and display it to administrators to allow them to import data from different product platform

BPI GLOBE BANKO June 2015 – July 2015

Product Management Intern

- Worked with a team MVP using Grunt and NodeJS, thereby increasing productivity by 90%
- Researched on proper design techniques and utilized techniques to create a homepage for the MVP
- Presented the technologies used to create the website to team members to enable continued maintenance and updates for the website
